

## ○ HOLY CROSS ALUMNI ASSOCIATION

### ○ 2013 Football Field Parking Entry/Exit Rules

This year because of liability and safety concerns, no motorized vehicles such as motor homes, motorcycles, u-haul trucks will be allowed to remain on the football field on Saturday and Sunday of the tournament. However, vehicles will be allowed to enter in order to unload equipment and supplies to include trailers/storage units. Every caution shall be taken to not drive directly on the football field but to utilize the track.

We encourage that unloading take place on Friday. Access on Saturday and Sunday will be in the morning with all vehicles cleared-off the field by 9:30 a.m. both days. Any exceptions will be cleared by the Committee. Any vehicles remaining on the field will be towed by the contracted firm and all costs will be borne by the individual. If exception is made then security will hold driver's license and record a cell number so that in the event the owner of the vehicle overstays then they can be contacted before the wrecker is called.

We remind all classes as they are unloading that it is illegal to bring in any outside beer. During this time of set-up we will be working with team captains and participants to fill out registration forms for the alumni association. We are working to ensure greater participation and involvement from alumni throughout the year.

We are asking all classes to pick-up their pits and equipment on Monday, Memorial Day. If that is not possible then register the individual that needs access - only one. Access will start on Sunday at 9:00 PM. This is for pick-up only, so pits and supplies should be ready to go. You can access the school parking lot starting at 9:00 p.m. as well.

The Committee truly appreciates the cooperation and patience exhibited by the classes during the transition but due to liability concerns, this is the right thing to do for the benefit of all participants.
